PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

ESTABLISHMENT.—GENERAL.

Fort William, the 19th May 1874.

Nos. 892—97 E.-G.

Notifications in either the *Local Gazette*s, or Part II of the *Gazette of India*, should invariably appear under the signature of the Officer empowered by Government to publish them.

2. As all such notifications must emanate from the Officers who are responsible for them, the name of the responsible Officer may appear at the foot of the copy sent for publication as "signed," and the actual issue will be made under such arrangements for the convenient conduct of business as may be in force.

3. The signature of Personal Assistants, or of Head Clerks, below the name and title of the responsible Officer, may, in the exceptional cases when such an arrangement is necessary, serve to authenticate the notification, but should not appear in the *Gazette*.

4. In cases of ordinary correspondence, in which it may be necessary for Head Clerks to sign letters or orders, the signature should appear as for the responsible Officer, and should be understood as merely authenticating the document, and no designation, such as Assistant, Personal Assistant, or Superintendent, not authorized by Government, be adopted or appended to the signature.

C. H. DICKENS, Colonel, R. A.,
Secretary to the Govt. of India.
